## **DETAILED ACTION**

### ***Election/Restrictions***

1. This application contains claims directed to the following patentably distinct species: Species I as shown in figures 1-7, species II as shown in figures 8-12, species III as shown in figure 13, species IV as shown in figure 14-15, species V as shown in figures 16-17, species VI as shown in figure 18 and species VII as shown in figures 19-20. The species are independent or distinct because Species I is directed to a palm pad, species II depicts a bicycle seat pad, species III depicts a handgun pad, species IV pertains to a rifle pad, species V depicts a mouse pad, species VI depicts a pad on a garment and species VII depicts a knee pad.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an

Art Unit: 3765

allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
